Lab sheet 07

Task - Create a Simple Bootstrap Webpage

Create a single HTML file. Your webpage should contain the following sections.

1. Header Section

Create a dark header section at the top of the webpage.

Add the website name: **MySite**

Add 3 navigation links:

- Home
- About
- Contact

Use Bootstrap classes:

- .bg-dark
- .text-white
- .p-3
- .text-center

2. Welcome Section

Create a welcome section below the header.

Add:

- A heading: **Welcome to MySite**
- A short paragraph: **Learn Bootstrap easily**
- A button: **Get Started**

Use Bootstrap classes:

- .container
- .text-center
- .p-5
- .bg-light
- .rounded

- .btn
- .btn-primary

3. Card Section

Create a responsive section with **2 cards**.

Each card should contain:

- An image
- Card title
- Short description
- A button

Use Bootstrap classes:

- .container
- .row
- .col-md-6
- .card
- .card-body
- .btn
- .btn-success

4. Footer

Create a footer at the bottom of the webpage.

Use Bootstrap classes:

- .bg-dark
- .text-white
- .text-center
- .p-3
